

CSC 230 Lab #1

Due Date: Friday 2/1/18 10:00 AM

Late submission will not be accepted

Submission:

Zip up project directory and submit to moodle.

Make sure you have your N number and Full name on top of all source code files.

Objectives:

To practice making doubly linked lists

Procedure:

Download DoublyLinkedLab.zip

Extract file and import the project from inside folder.

You must finish coding the Node and DoubleLinkedList classes, Test class is already complete and can be used to test the doubly linked list.

See comments in file and use the algorithms shown in class.

Make sure to put your name and N number in each source file.
