

Day 12: What's Wrong With This Code #1

Please help NCC conserve resources by not printing this document on campus.

Identify any problems you can find with this code.

```
1 public Class Student( ) {  
2     public String id = new String( );  
3     public String FirstName = new String( );  
4     public String LastName = new String( );  
5     public double exams[ ] = new double[ 4 ];  
6  
7     public Student( ) {  
8         id = new String( "none" );  
9         FirstName = new String( "none" );  
10        LastName = new String( "none" );  
11        exams = new double[ 4 ];  
12    }  
13  
14    // more code here...  
15  
16 }
```
