Day 3: Statements Exercise

Make sure you can explain what each of these statements does.

```
1  double price;
2  price = 10.0;
3  String description;
4  description = new String( "Spiral notebook" );
5  String code = JOptionPane.showInputDialog( "Please enter the product code:" );
6  int quantity =
7      Integer.parseInt( JOptionPane.showInputDialog( "Please enter the quantity:" ) );
```
